Dear Mr Debney

Hob's Moat Ancient Monument

It is the intention of Solihull MBC to designate Hob's Moat Ancient Monument as a Local Nature Reserve in recognition of its local value for wildlife and people. I have been undertaking a survey of the site for its flora and fauna but it is important to understand the history of an area to inform any future management and interpretation. I have contacted English Heritage and our local Archaeology Group and I understand that you led the most recent excavation of the site.

Please can you tell me if information is available to view regarding any findings at Hob's Moat so that I can include details in my survey report and any management plans.

I look forward to hearing from

Yours sincerely

Gary Farmer

SMBC Local Nature Reserve Officer
